PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

25X1D This POL storage area on the south tip of Vapnyarka (Figure 1) occupies an 800-foot square and contains 11 POL tanks. Three tanks are 60 feet in diameter, two are 40 feet, four are [REDACTED], and two are 20 feet. An unidentified 100- by 60-foot building is near the south side of the fenced area. Two smaller buildings, each approximately 70 by 30 feet, form the entrance to the yard (Figures 2 and 3). The

two-lane crushed rock gravel road that serves the yard passes on the west side. Although a double-track railroad passes close to the east side of the yard, no POL loading/unloading gear is in evidence.

The installation has been covered by [REDACTED] KEYHOLE missions. There were no significant changes apparent between [REDACTED] [REDACTED]

25X1D

DESCRIPTION OF INSTALLATION

Railroad Service

A double-track rail line is immediately east of the POL yard, but no direct connection or service is evident.

Road Service

A two-lane crushed rock gravel road from Vapnyarka serves the area.

POL Storage Area

Area G (Figure 3) contains 11 POL tanks--

three 60 feet, two 40 feet, four [REDACTED] and two 20 feet in diameter. One of the large tanks is dark colored; all others are light colored suggesting the use of reflective paint.

The area also has three support buildings. The large building may be used as a pump or valve house. The two smaller structures are possible guard houses or keepers' quarters.
